A. Selected development equilibria
Extinction probability by year 25 (%)
Commercial curvature, sigma
q = 0.01
q = 0.03
q = 0.1
q = 0.3
B. Fixed autonomous state: a = 3, k = 1
Conditional extinction probability (%)
Years of autonomous continuation
Containment = 0
Containment = 0.01
Containment = 0.08
Containment = 0.2
